COUNT BASIS: 24+ IS COUNTED AS 24 AS AN ESTIMATE. PALLET QUANTITIES COUNT PALLETS / LOTS, NOT EACH INDIVIDUAL PIECE ON THE PALLET. +/-

NEXT STEP: COMPLETE ADMINISTRATIVE VALIDATION, DUPLICATE FA# REVIEW, TITLE / VIN RECONCILIATION, GOVERNING BODY DOCUMENTATION, AND OCTOBER 5 STAGING PREPARATION.

NOTE: The Disposal Committee would request that the Governing Body grant the Disposal Committee discretion to add miscellaneous items with an estimated auction value of less than \$1,000 to the approved disposal list. This DOES NOT include items that are Capital Assets. This authority would allow the Committee to efficiently address lower-value items identified after approval of the primary disposal list, consolidate similar items where appropriate, and maximize the City's opportunity to dispose of surplus property in the most efficient and cost-effective manner.

NOTE: The Disposal Committee would request that the Governing Body grant the Disposal Committee discretion to add miscellaneous items with an estimated auction value of less than \$1,000 to the approved disposal list. This DOES NOT include items that are Capital Assets. This authority would allow the Committee to efficiently address lower-value items identified after approval of the primary disposal list, consolidate similar items where appropriate, and maximize the City's opportunity to dispose of surplus property in the most efficient and cost-effective manner.

Unfortunately, most of our vehicles going to auction will have about 100K or more miles.

We have some Ford Fusions with lower miles that we may have available at the end of this year or early next. If you want to go with this platform, I recommend going with the Ecoboost engine rather than the Hybrid engine platform. We usually work with Fleet to get the information out on these vehicles to all departments because they likely have some usable life for other than law enforcement purposes.

Thank you, Chief,

I was staying away from the 2020 Police vehicles because I assumed the mileage was high.

Good afternoon Tom and Eric,

The 260087 is totaled from crash and requires about \$45k to make it operational. 56538 & 56658 are both wrecked as well.

56661 and 56665 might be viable, they have high mileage (130k and 120k). Might be worth looking at.

I would like to know as well. I also have questions about some others. We could start replacing some of our aged units with some of these.

Subject: ACTION REQUIRED – Disposal List Review Due COB 9/11/26

Good morning,

Attached is the current Citywide Disposal List, which comprises the results of the submissions received from departments.
As part of the disposal process, one of the first steps is to continue vetting the list to determine whether any vehicle, equipment, or other item could reasonably be repurposed elsewhere within the City.

The goal is simple: before disposing of City property purchased with taxpayer dollars, we should first determine whether there is a reasonable City use for it elsewhere in the organization. This could save taxpayer dollars and help prevent the City from purchasing duplicate equipment or functionality that we already own.

Please review the attached list and determine whether there is a vehicle or item your department may have an interest in using. If so, simply cut and paste the applicable item(s) into your response to me in this email. Finance/Fleet will conduct additional research to determine whether there are any circumstances that would prevent the transfer or whether the item could be approved for reassignment.
Please also forward this email to anyone on your staff who may be able to assist with the review.

A separate email will be sent outlining the specific responsibilities departments will have as we move through the disposal process.

As always, Finance/Fleet appreciates your assistance.

Thanks,
Scott
