RE: Repealing Ordinances for City Committees

EXECUTIVE SUMMARY:
The City of Santa Fe ("City") has committees established in the City's code or via resolution. The proposed bill rescinds the relevant Sections in SFCC 1987 that established or referenced the following committee:

- Section 6-3 Establishing the Civil Defense Council

BACKGROUND:
The Civil Defense Council was created in Santa Fe City Code ("SFCC") in 1962, to coordinate local defense efforts with the national defense program in the event of an emergency, and the relevant City Code was most recently amended in 1981. There is no record of the Civil Defense Council having met in the City's recent history.
